# Learn before you leap.

Guides and notes from our advisors — written to be read, not to impress.

## Due Diligence

### How to evaluate an SME before investing: a 12-point checklist

#### SHORT ANSWER

Check registration, ownership, financials, cash flow, debts, customers, team, and use of funds — in writing — before you commit a single taka.

## Valuation & Finance

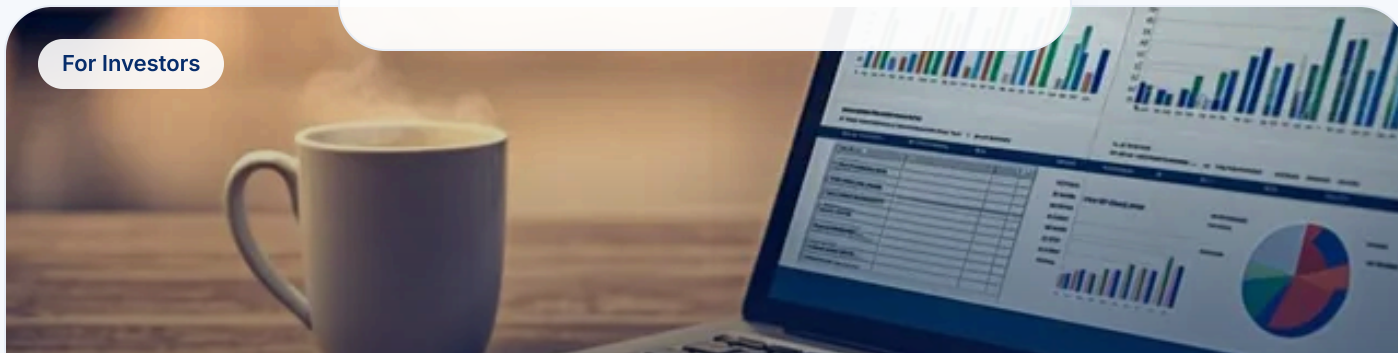

### Valuation basics for founders: what investors actually look at

#### SHORT ANSWER

Investors price risk and evidence, not dreams. Understand comparable deals, earnings quality, and work your valuation must survive negotiation.

For Investors

## Red flags in investment offers (and how to spot them)

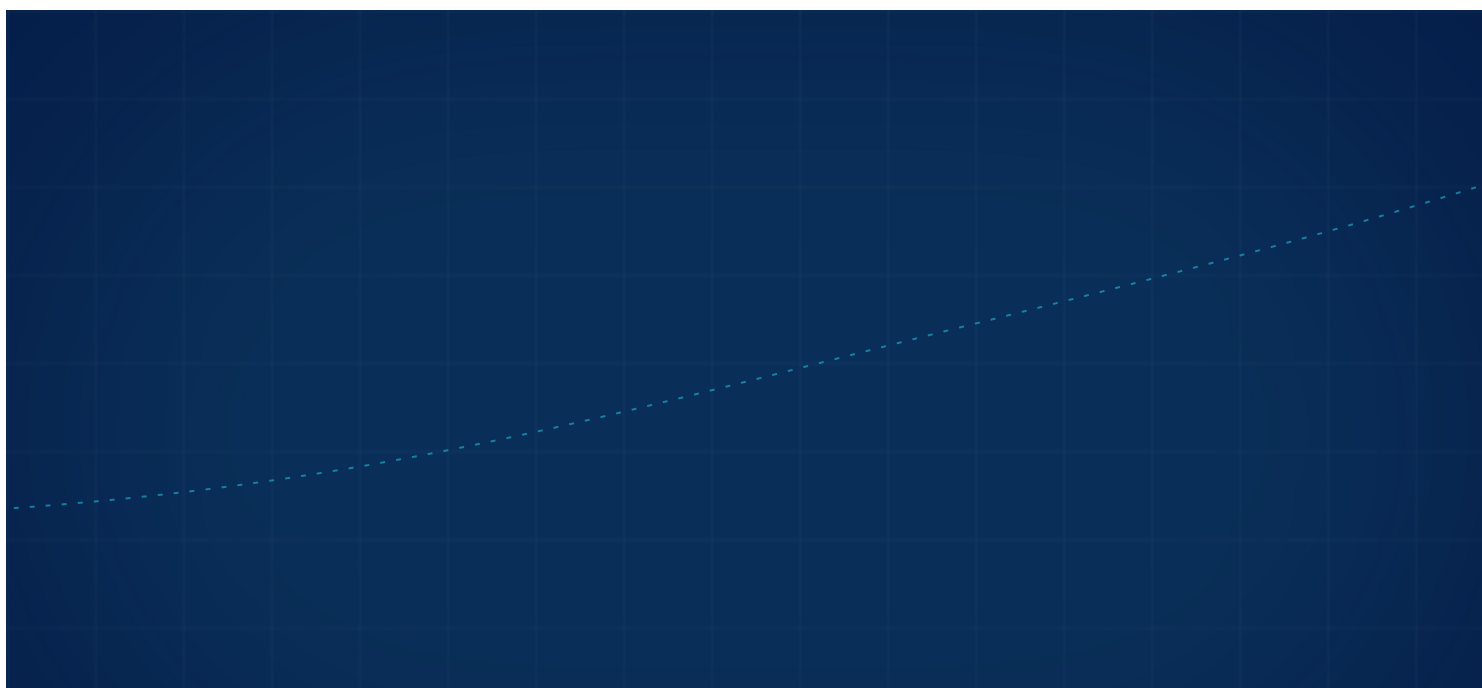

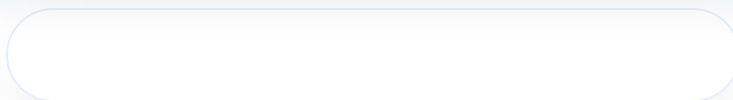

### SHORT ANSWER

Guaranteed returns, urgency pressure, missing documents, unclear fees, no downside case — learn the patterns that should make you walk away.
